

What am
I doing?

What am I
doing?

Basic activity:

- Choose some action pictures.
- Hide one picture behind the “What am I doing?” card.
- The children have the cue cards and take it in turns to ask the adult the questions.
- The winner is the first person to guess what the action is.

Build on it by:

- Choosing a child to select the hidden word. They have to be the teacher and answer the questions.
- Letting the child who has chosen the word use the cue cards to give clues. They have to try to use as few cue cards as possible as this will encourage them to decide what links to the word are the most important.
- Doing a brainstorm of links to the action such as the different people that could do the action, the different ways the action could be carried out etc.
