

What am I?

I like to eat insects

I can fly

I come out at night

What am I?

I am made of metal

I am sharp

You use me to cut paper

What am I?

I have numbers on me

You switch me on and off

I can help with difficult maths

What am I?

I smell nice

You find me in the bathroom

You wash your hands with me

What am I?

You find me in the garden

I have four legs

I have prickles on my body

What am I?

I grow under the ground

You can eat me

Rabbits like to eat me too

What am I?

I have lots of legs

I like to eat leaves

I turn into a butterfly

What am I?

You find me in the kitchen

I have an electrical plug

I keep food cold

What am I?

I am round

I am made of metal

You wear me on your finger

What am I?

I lay eggs

I live in ponds

I am green and can swim & hop

What am I?

I am made of metal

You turn me on

Water comes out of me

What am I?

I have a handle

You can open and shut me

I stop you getting wet in the rain
